The People's Voice Barnet Baskerville 2014-07-15 In this flavorful and perceptive study of the American orator, Barnet Baskerville makes an inquiry into American attitudes toward orators and oratory and the reflection of these attitudes in speaking practices. He examines the role of the orator in society and the kinds or qualities of oratory that were dominant in each period of American history, and he looks into the nature and importance of oratory as perceived by audiences and by speakers themselves. By examining this "public image" of the orator, the author is able to tell us much about the people who drew that image.

Early New England Potters and Their Wares Lura Woodside Watkins 2011-03-23 This book is the result of more than fifteen years of research. The study has been carried on, partly in libraries and town records, partly by conferences with descendants of potters and others familiar with their history, and partly by actual digging on the sites of potteries. The excavation method has proved most successful in showing what our New England potters were making at an early period now almost unrepresented by surviving specimens.

Economic Gangsters Ray Fisman 2010-01-04 Meet the economic gangster. He's the United Nations diplomat who double-parks his

Mercedes on New York City streets at rush hour because the cops can't touch him--he has diplomatic immunity. He's the Chinese smuggler who dodges tariffs by magically transforming frozen chickens into frozen turkeys. The dictator, the warlord, the unscrupulous bureaucrat who bilks the developing world of billions in aid. The calculating crook who views stealing and murder as just another part of his business strategy. And, in the wrong set of circumstances, he might just be you. In *Economic Gangsters*, Raymond Fisman and Edward Miguel take readers into the secretive, chaotic, and brutal worlds inhabited by these lawless and violent thugs. Join these two sleuthing economists as they follow the foreign aid money trail into the grasping hands of corrupt governments and shady underworld characters. Spend time with ingenious black marketeers as they game the international system. Follow the steep rise and fall of stock prices of companies with unseemly connections to Indonesia's former dictator. See for yourself what rainfall has to do with witch killings in Tanzania--and more. Fisman and Miguel use economics to get inside the heads of these "gangsters," and propose solutions that can make a difference to the world's poor--including cash infusions to defuse violence in times of drought, and steering the World Bank away from aid programs most susceptible to corruption. In a new postscript, the authors look at how economists might use new tools to better understand, and

fight back against, corruption and violence in the aftermath of the 2008 financial crisis. Take an entertaining walk on the dark side of global economic development with *Economic Gangsters*.

Tourism Management Clare Inkson 2018-03-12 An introductory text that gives its reader a strong understanding of the dimensions of tourism, the industries of which it is comprised, the issues that affect its success, and the management of its impact on destination economies, environments and communities. Now in a full colour design, the new edition features a clear focus on the issues affecting 21st century tourism, providing students with extensive coverage on the effects of globalisation and global conflict; sustainability and climate change; developments in digital technology and the rise of the sharing economy. International case-studies and snapshots (mini-case studies) are used throughout and have been taken from around the globe, including the US, China, Russia, Gambia, Bhutan, Cuba, Singapore, New Zealand, Australia, Caribbean, Canada and the UK, and from companies including TUI, Airbnb and Marriot. The accompanying Online Resources include PowerPoint slides and an Instructor's Manual for lecturers and additional case studies, useful video links, and web links for students. Suitable for students new to tourism studies.

Assigning Responsibility for Children's Health When Parents and Authorities Disagree: Whose Child? Allan J. Jacobs 2021-10-26 This book provides a multidisciplinary analysis of the potential conflict between a government's duty to protect children and a parent(s)' right to raise children in a manner they see fit. Using philosophical, bioethical, and

legal analysis, the author engages with key scholars in pediatric decision-making and individual and religious rights theory. Going beyond the parent-child dyad, the author is deeply concerned both with the interests of the broader society and with the appropriate limits of government interference in the private sphere. The text offers a balance of individual and population interests, maximizing liberty but safeguarding against harm. Bioethics and law professors will therefore be able to use this text for both a foundational overview as well as specific, subject-level analysis. Clinicians such as pediatricians and gynecologists, as well as policy-makers can use this text to achieve balance between these often competing claims. The book is written by a physician with practical and theoretical knowledge of the subject, and deep sympathy for the parental and family perspectives. As such, the book proposes a new way of evaluating parental and state interventions in children's' healthcare: a refreshing approach and a useful addition to the literature.

Political Economy and the Novel Sarah Comyn 2018-10-04 *Political Economy and the Novel: A Literary History of 'Homo Economicus'* provides a transhistorical account of homo economicus (economic man), demonstrating this figure's significance to economic theory and the Anglo-American novel over a 250-year period. Beginning with Adam Smith's seminal texts – *Theory of Moral Sentiments* and *The Wealth of Nations* – and Henry Fielding's *A History of Tom Jones*, this book combines the methodologies of new historicism and new economic criticism to investigate the evolution of the homo economicus model as it traverses through Ricardian economics and Jane Austen's *Sanditon*; J. S. Mill and Charles Dickens' engagement with mid-Victorian dualities; Keynesianism and Mrs Dalloway's exploration of post-war consumer impulses; the a/moralistic discourses of Friedrich von Hayek, and Ayn Rand's *Atlas Shrugged*; and finally the virtual crises of the twenty-first century financial market and Don DeLillo's *Cosmopolis*. Through its sustained comparative analysis of literary and economic discourses, this book transforms our understanding of the genre of the novel and offers critical new

understandings of literary value, cultural capital and the moral foundations of political economy.

Economics Private and Public Choice James D Gwartney 2013-09-11 Economics: Private and Public Choice is an aid for students and general readers to develop a sound economic reasoning. The book discusses several ways to economic thinking including six guideposts as follows: (i) scarce goods have costs; (ii) Decision-makers economize in their choices; (iii) Incentives are important; (iv) Decision-makers are dependent on information scarcity; (v) Economic actions can have secondary effects; and (vi) Economic thinking is scientific. The book explains the Keynesian view of money, employment, and inflation, as well as the monetarist view on the proper macropolicy, business cycle, and inflation. The book also discusses consumer decision making, the elasticity of demand, and how income influences demand. The text analyzes costs and producer decisions, the firm under pure competition, and how a competitive model functions. The book explains monopoly, and also considers the high barriers that prevent entry such as legal barriers, economies of scale, and control over important resources. The author also presents comparative economic systems such as capitalism and socialism. This book can prove useful for students and professors in economics, as well as general readers whose works are related to public service and planning in the area of economic development.

Real World Research Colin Robson 2002-03-20 This successful text on carrying out research in 'real world' situations has been thoroughly revised and updated in order to make it as useful as possible to teachers and students from a range of behavioral and social science disciplines. Includes new examples from applied psychology, applied social science, health studies, social work and education. Provides more coverage of qualitative methods. Pedagogical material has been updated to include a glossary and detailed cross-referencing across chapters. Bases the quantitative analysis section around version 10 of SPSS and the section on qualitative analysis around the NUD*IST software. Situates material more clearly within theoretical conceptualizations of the nature of social science research, pointing to the advantages of a critical realist approach. Cross-Cultural Psychology Eric B. Shiraev 2016-08-12 Written in a conversational style that transforms complex ideas into accessible ones,

this international best-seller provides an interdisciplinary review of the theories and research in cross-cultural psychology. The book's unique critical thinking framework, including Critical Thinking boxes, helps to develop analytical skills. Exercises interspersed throughout promote active learning and encourage class discussion. Case in Point sections review controversial issues and opinions about behavior in different cultural contexts. Cross-Cultural Sensitivity boxes underscore the importance of empathy in communication. Numerous applications better prepare students for working in various multicultural contexts such as teaching, counseling, health care, and social work. The dynamic author team brings a diverse set of experiences in writing this book. Eric Shiraev was raised in the former Soviet Union and David Levy is from Southern California. Sensation, perception, consciousness, intelligence, human development, emotion, motivation, social perception, interaction, psychological disorders, and applied topics are explored from cross-cultural perspectives. New to the 6th Edition: Over 200 recent references, particularly on studies of non-western regions such as the Middle East, Africa, Asia, & Latin America as well as the US and Europe. New chapter on personality and the self with an emphasis on gender identity. New or revised chapter opening vignettes that draw upon current events. More examples related to the experiences of international students in the US and indigenous people. Many more figures and tables that appeal to visual learners. New research on gender, race, religious beliefs, parenting styles, sexual orientation, ethnic identity and stereotypes, conflict resolution, immigration, intelligence, physical abuse, states of consciousness, DSM-5, cultural customs, evolutionary psychology, treatment of psychological disorders, and acculturation. Revised methodology chapter with more attention to issues related specifically to cross-cultural research and more on qualitative and mixed methods. A companion website at www.routledge.com/9781138668386 where instructors will find a test bank containing multiple choice, true and false, short answer, and essay questions and answers for each chapter, and a complete set of tables and figures from the text; and students will find chapter outlines, flashcards of key terms, and links to further resources

and the authors' Facebook page. Intended as a text for courses on cross-cultural psychology, multicultural psychology, cultural psychology, cultural diversity, and the psychology of ethnic groups and a resource for practitioners, researchers, and educators who work in multicultural environments.
