**Human Transit** Jarrett Walker 2012-07-29 Public transit is a powerful tool for addressing a huge range of urban problems, including traffic congestion and economic development as well as climate change. But while many people support transit in the abstract, it's often hard to channel that support into good transit investments. Part of the problem is that transit debates attract many kinds of experts, who often talk past each other. Ordinary people listen to a little of this and decide that transit is impossible to figure out. Jarrett Walker believes that transit can be simple, if we focus first on the underlying geometry that all transit technologies share. In *Human Transit*, Walker supplies the basic tools, the critical questions, and the means to make smarter decisions about designing and implementing transit services. *Human Transit* explains the fundamental geometry of transit that shapes successful systems; the process for fitting technology to a particular community; and the local choices that lead to transit-friendly development. Whether you are in the field or simply a concerned citizen, here is an accessible guide to achieving successful public transit that will enrich any community.

**Violent Video Game Effects on Children and Adolescents** Craig A. Anderson 2007-01-11 Violent video games are successfully marketed to and easily obtained by children and adolescents. Even the U.S. government distributes one such game, America's Army, through both the internet and its recruiting offices. Is there any scientific evidence to support the claims that violent games contribute to aggressive and violent behavior? As the first book to unite empirical research on and public policy options for violent video games, *Violent Video Game Effects on Children and Adolescents* will be an invaluable resource for student and professional researchers in social and developmental psychology and media studies.

**Communities in Action** National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

**Guns, Germs, and Steel: The Fates of Human Societies (20th Anniversary Edition)** Jared Diamond 2017-03-07 "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and ventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

**Uncle Tom's Cabin** Harriet Beecher Stowe 2009-01-01 It is the best known book about American slavery, and was so incendiary upon its first publication in 1852 that it actually ignited the social flames that led to Civil War less than a decade later. What began as a series of sketches for the Cincinnati abolitionist newspaper *The National Era* scandalized the North, was banned in the South, and ultimately became the bestselling novel of the 19th century. Today, controversy over this melodramatic tale of the dignified slave Tom, the brutal plantation owner Simon Legree, and Stowe's other vividly drawn characters continues, as modern scholars debate the work's newly appreciated feminist undertones and others decry it as the source of enduring stereotypes about African Americans. As one of the most influential books in U.S. history, it deserves to be read by all students of literature and of the American story. American abolitionist and author HARRIET BEECHER STOWE (1811-1896) was born in Connecticut, daughter of a Congregationalist minister and sister to abolitionist theologian Henry Ward Beecher. She wrote more than two dozen books, both fiction and nonfiction.

**EngiNerds** Jarrett Lerner 2019-02-19 The battle between boys and bots is on in this funny, fast-paced novel. Ken is an EngiNerd: one of a super-smart group of friends—all nerds—who have been close since kindergarten. They may be brainiacs, but they're just like everyone else: they fight with one another, watch too much TV, eat Chinese food, and hate walking their dogs. Well, maybe not just like everyone because Ken's best friend Dan has been building robots. He then secretly sent one to each of the EngiNerds, never letting them know he's the mastermind. At first Ken is awed and delighted: what kid hasn't dreamed of having a robot all their own? Someone who can be their friend, clean their room, walk the dog, answer homework questions...how amazing is that? But be careful what you wish for: Dan's robot, Greeeg, may look innocent, but his ravenous consumption of food—comestibles—turns him into a butt-blasting bot. And once the other robots 'come alive' it's up to the motley crew of EngiNerds to not only save the day, but save the planet!

**Deans and Truants** Gene Andrew Jarrett 2007 For a work to be considered African American literature, does it need to focus on black characters or political themes? Must it represent these within a specific stylistic range? Or is it enough for the author to be identified as African American? In *Deans and Truants*, Gene Andrew Jarrett traces the shifting definitions of African American literature and the authors who wrote beyond those boundaries at the cost of critical dismissal and, at times, obscurity. From the late nineteenth century to the end of the twentieth, de facto deans--critics and authors as different as William Howells, Alain Locke, Richard Wright, and Amiri Baraka--prescribed the shifting parameters of realism and racial subject matter appropriate to authentic African American literature, while truant authors such as Paul Laurence Dunbar, George S. Schuyler, Frank Yerby, and Toni Morrison--perhaps the most celebrated African American author of the twentieth century--wrote literature anomalous to those standards. Jarrett explores the issues at stake when Howells, the "Dean of American Letters," argues in 1896 that only Dunbar's "entirely black verse," written in dialect, "would succeed." Three decades later, Locke, the cultural arbiter of the Harlem Renaissance, stands in contrast to Schuyler, a journalist and novelist who questions the existence of a peculiarly black or "New Negro" art. Next, Wright's 1937 blueprint for African American writing sets the terms of the Chicago Renaissance, but Yerby's version of historical romance approaches race and realism in alternative literary ways. Finally, *Deans and Truants* measures the gravitational pull of the late 1960s Black Aesthetic in Baraka's editorial silence on Toni Morrison's first and only short story, "Recitatif." Drawing from a wealth of biographical, historical, and literary sources, *Deans and Truants* describes the changing notions of race, politics, and gender that framed and were framed by the authors and critics of African American culture for more than a century.

**Educating the Student Body** Committee on Physical Activity and Physical Education in the School Environment 2013-11-13 Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. *Educating the Student Body* makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

**Freedom to Smoke** Jarrett Rudy 2005-09-30 In the late Victorian era, smoking was a male habit and tobacco was consumed mostly in pipes and cigars. By the mid-twentieth century, advertising and movies had not only made it acceptable for women to smoke but smoking had become a potent symbol of their emancipation. From mass cigarette production in 1888 to the first studies linking cigarettes to lung cancer in 1950, *The Freedom to Smoke* explores gender and other key issues related to smoking in Montreal, including the arrival of "big tobacco," first attempts to ban the cigarette, wartime tobacco funds, French Canadian smoking habits, rituals of manliness, and the growing respectability of women smokers - none of which have been examined by historians. **Hong Kong Cinema** Stephen Teo 2019-07-25 This is the first full-length English-language study of one of the world's most exciting and innovative cinemas. Covering a period from 1909 to 'the end of Hong Kong cinema' in the present day, this book features information about the films, the studios, the personalities and the contexts that have shaped a cinema famous for its energy and style. It includes studies of the films of King Hu, Bruce Lee and Jackie Chan, as well as those of John Woo and the directors of the various 'New Waves'. Stephen Teo explores this cinema from both Western and Chinese perspectives and encompasses genres ranging from melodrama to martial arts, 'kung fu', fantasy and horror movies, as well as the international art-house successes.

**Changeability** Michael Jarrett 2010-04-08 Are you falling behind your competitors? Are you too slow getting your products to market? Are you overheads too high? These are just some of the challenges that companies face. However, initiating successful change strategies is far from easy. 70% of all change programmes fail. This book shows how you can make sure that when change happens (and it frequently does) your company is ready for it. Shareholders want to see change take effect immediately, as each day's delay can cost them money or lose them market share, while staff are often suspicious of change, wondering what's in it for them. How do you make sure the change you want happens successfully, that it has everyone's support, and how do you make it stick? The only way to walk this tightrope without falling off is to leave behind the old models and adapt a new practice of change management. Michael Jarrett draws on established research, case examples and his own wide consulting experience to illustrate that current models of step change are largely doomed to failure and proposes a new framework that aligns both the internal and external dynamics of change. In a refreshingly clear and practical

approach, Changeability points to a new route to successful change which uses a balanced approach taking account of the four key levers of change. First, take the online diagnostic test to benchmark your organisation against others in terms of your ability to change and to assess your relative strengths and weaknesses. Then use the tools, methods and techniques outlined by Jarrett to develop winning change strategies customised for your company. There are four main groups of strategies, depending upon your situation - so choose the one that's right for you and open the door to accelerated and sustainable change.

*Trump 2020* Josh Goldstein 2020-02-15 As the time for another election approaches, it is high time for the American people to make yet another decision. Did Trump keep his promises? Is he the right person to Keep America Great? This book answers some critical questions on the eve of the 2020 election. First, before moving further, you need to know why Americans chose Trump to run the country. The reason Trump got elected is that he gave people a vision. He gave the people of America hope. And his optimistic view and hope of making AMERICA GREAT AGAIN put him into the oval office. Donald J. Trump, like or hate him, is the President of the United States. There is no other political figure in recent memory that has been so polarizing. Despite this, he has accomplished so much in so short a time for America. Trump is already a consequential President in American history. He is the first US President to meet with a North Korean dictator. He is the first President to attend the March for Life. Under his administration, we have experienced the lowest Black and Latino unemployment. Women have experienced the lowest unemployment rate in 50 years during his first term in office. In this well-researched book, Josh takes you on a journey and shows you why Donald Trump became President of the United States in 2016, and why he is likely to be re-elected in 2020. WHAT OTHERS ARE SAYING ABOUT DONALD J. TRUMP Hillary Clinton's chances reached 91 percent last night -- their highest point yet in this election cycle. The latest rise comes from gains in Arizona and Georgia, as well as hints of further weakness in typically safe red states like Alaska and Utah.From the beginning, Donald J. Trump faced a challenging electoral map, and his campaign has not improved his chances. At this point, even a large polling miss would not be enough for Mr. Trump to win -- it will take a sudden and striking change in the fundamentals of the presidential race. As a rule of thumb, we should expect Election Day polling averages to miss by as much as 3 to 4 points: Mrs. Clinton's current lead in the national popular vote is around 6 to 7 points and growing.-New York Times 2016 Presidential Forecast, Tuesday, October 18, 2016 (nytimes.com)It really does now look like President Donald J. Trump, and markets are plunging. When might we expect them to recover? A first-pass answer is never... So we are very probably looking at a global recession, with no end in sight. -- Paul Krugman of the New York Times the day after the election (investors.com) Trump's 'Haters' Are the Ones Breaking America--Kimberley Strassel (cited by The Daily Signal)I'm Concerned If We Don't Impeach This President, He Will Get Re-Elected--Rep. Al Green (Real Clear Politics)I like almost everything about him. He's, I would say, a very refreshing figure in American politics. And of course, that's what makes him a disruptor.I guess his ability to see things slightly differently is what's most refreshing, his ability to look at an issue and say, "Why don't we do this?" And everybody says, "Well, you can't do that." And he says, "Well, why not?" He has that side to him, and I think it served him very well in a number of ways.I think that's part of the reason a lot of Christians turned to Trump, because they saw that somehow he gets this. This is not somebody we might have picked first and there still may be many issues that we would quibble with, but honestly, getting that is so big.--Eric Metaxas (Interview on The Daily Signal)For God's Sake Trump's Tweet is Not Witness Intimidation--Gregg Jarrett (thegreggjarrett.com) Reminder that the Clinton campaign and DNC secretly hired a group to put together a dossier with demonstrably false dirt on Donald Trump and its author claimed it was sourced to people linked to the Russian government.--Mollie Hemingway (Twitter: @MZHemingway)Dems 'chasing rainbows' with impeachment, Trump headed for 'landslide' win--Governor Mike Huckabee (FoxNews.com)

**Measure for Measure** William Shakespeare 1991-06-27 Since the rediscovery of Elizabethan stage conditions early this century, admiration for Measure for Measure has steadily risen. It is now a favorite with the critics and has attracted widely different styles of performance. At one extreme the play is seen as a religious allegory, at the other it has been interpreted as a comedy protesting against power and privilege. Brian Gibbons focuses on the unique tragi-comic experience of watching the play, the intensity and excitement offered by its dramatic rhythm, the reversals and surprises that shock the audience even to the end. The introduction describes the play's critical reception and stage history and how these have varied according to prevailing social, moral and religious issues, which were highly sensitive when Measure for Measure was written, and have remained so to the present day.

**Finding My Voice** Valerie Jarrett 2020-04-14 A NEW YORK TIMES BESTSELLER "Valerie has been one of Barack and my closest confidantes for decades... the world would feel a lot better if there were more people like Valerie blazing the trail for the rest of us."--Michelle Obama "The ultimate Obama insider" (The New York Times) shares her journey at a pivotal moment in American history When Valerie Jarrett interviewed a promising young lawyer named Michelle Robinson in July 1991 for a job in Chicago city government, neither knew where that meeting might take them. Jarrett would go on to become a trusted friend and advisor to Michelle and Barack Obama -- and one of the most visible, influential African-American women of the twenty-first century. Now, in her forthright and optimistic memoir, Jarrett shares her experience as a mother, daughter, and woman who's experienced the magic that happens once we cast aside any unrealistic expectations of a perfect life or a perfect outcome. In Finding My Voice, she offers a galvanizing testament to the power in staying open to a change in course and an embrace of the uncomfortable. Only then, she argues, can we move forward together and truly learn to value--and listen to--our own voices.

**Hey, Kiddo: A Graphic Novel** Jarrett J. Krosoczka 2018-10-09 The powerful, unforgettable graphic memoir from Jarrett Krosoczka, about growing up with a drug-addicted mother, a missing father, and two unforgettably opinionated grandparents. A National Book Award Finalist! In kindergarten, Jarrett Krosoczka's teacher asks him to draw his family, with a mommy and a daddy. But Jarrett's family is much more complicated than that. Jarrett lives with his grandparents -- two very loud, very loving, very opinionated people who had thought they were through with raising children until Jarrett came along. **The War on History** Jarrett Stepman 2019-10-01 The War on Our History Confederate memorials toppled . . . Columbus statues attacked with red paint. They started with slave-owning Confederate generals, but they're not stopping there. The vandals are only pretending to care about the character of particular

American heroes. In reality, they hate what those heroes represent: the truths asserted in the Declaration of Independence and embodied in the Constitution. And they are bent on taking America down and replacing our free society with a socialist utopia. All that stands in their way is Americans' reverence for our history of freedom. Which is why that history simply has to go. Now, Jarrett Stepman, editor at The Daily Signal and host of Right Side of History, exposes the true aims of the war on our history: The war on America: World history is full of conquests and suffering indigenous peoples. Why target Christopher Columbus? What they really want to tear down is America. The war on Thanksgiving: World history is full of colonists. Why target the Pilgrims? What they really want to tear down is American freedom and prosperity. The war on the Founding: World history is full of slavery. Why target Thomas Jefferson? What they really want to tear down are the rights endowed by our Creator. The war on the common man: World history is full of victorious generals and populist politicians. Why target Andrew Jackson? What they really want to tear down is democracy. The war on the South: World history is full of civil strife. Why target Confederate heroes like Robert E. Lee? What they really want to tear down is respect for America's past and the reconciliation that renewed our Union. The war on patriotism: World history is full of national pride. Why target Teddy Roosevelt? What they really want to tear down is the idea of American greatness. The war on the American century: World history is full of bloody wars. What they really want to tear down is America's defeat of totalitarianism. If America is to survive this assault, we must rally to the defense of our illustrious history. The War on History is the battle plan.

**Around the World in Seventy-Two Days** Nellie Bly 2021-04-27 "She was part of the 'stunt girl' movement that was very important in the 1880s and 1890s as these big, mass-circulation yellow journalism papers came into the fore." --Brooke Kroeger Around the World in Seventy-Two Days (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne's Around the World in Eighty Days (1873), Bly's journey was covered in Joseph Pulitzer's popular newspaper the New York World, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly's arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan's Elizabeth Brisland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript, this edition of Nellie Bly's Around the World in Seventy-Two Days is a classic work of American travel literature reimagined for modern readers.

**The Talented Tenth** W E B Du Bois 2020-10-13 Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

**A Promised Land** Barack Obama 2020-11-17 A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Marie Claire In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. A Promised Land is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.
