marches toward the Ancient City as power struggles ensue in Brighton. Several outcasts gather in the collapsed world of the Ancients. Will they find answers and survive, or will they perish? Ready Player One Ernest

Cline 2011-08-16 #1 NEW YORK TIMES BESTSELLER • Now a major motion picture directed by Steven Spielberg. “Enchanting . . . Willy Wonka meets The Matrix.”—USA Today • “As one adventure leads expertly to the next, time simply evaporates.”—Entertainment Weekly A world at stake. A quest for the ultimate prize. Are you ready? In the year 2045, reality is an ugly place. The only time Wade Watts really feels alive is when he’s jacked into the OASIS, a vast virtual world where most of humanity spends their days. When the eccentric creator of the OASIS dies, he leaves behind a series of fiendish puzzles, based on his obsession with the pop culture of decades past. Whoever is first to solve them will inherit his vast fortune—and control of the OASIS itself. Then Wade cracks the first clue. Suddenly he’s beset by rivals who’ll kill to take this prize. The race is on—and the

only way to survive is to win. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Entertainment Weekly • San Francisco Chronicle • Village Voice • Chicago Sun-Times • iO9 • The AV Club “Delightful . . . the grown-up’s Harry Potter.”—HuffPost “An addictive read . . . part intergalactic scavenger hunt, part romance, and all heart.”—CNN “A most excellent ride . . . Cline stuffs his novel with a cornucopia of pop culture, as if to wink to the reader.”—Boston Globe “Ridiculously fun and large-hearted . . . Cline is that rare writer who can translate his own dorky enthusiasms into prose that’s both hilarious and compassionate.”—NPR “[A] fantastic page-turner . . . starts out like a simple bit of fun and winds up feeling like a rich and plausible picture of future friendships in a world not too distant from our own.”—iO9 *Sandstorm Box Set* T.W. Piperbrook 2021-05-18

SANDSTORM - The complete best-selling dystopian science fiction series Books 1-4, available for the first time in one special box set! Over 900 pages of reading! Something is hunting the inhabitants of Ravar... For three generations, the colonists on Ravar have been stranded on a harsh planet, forced to survive in a desert environment where only the scrappiest animals and the heartiest plants survive. Most live without the foolish hope that Earth's supply ships will ever grace the skies again. Trapped in a sandstorm, Neena Xylance struggles to make her way back to her colony. What she doesn't know is that she isn't alone, and what she finds might destroy the last of the fragile life on her planet. The Complete Sandstorm Series - All in this one, special edition Book 1 - Sandstorm Book 2 - Windswept Book 3 - Dustborn Book 4 - War Torn keywords: science fiction, dystopian, post-apocalyptic, space

opera, space exploration, colonization, alien worlds and planets Utopian and Dystopian Writing for Children and Young Adults Carrie Hintz 2013-10-11 This volume examines a variety of utopian writing for children from the 18th century to the present day, defining and exploring this new genre in the field of children's literature. The original essays discuss thematic conventions and present detailed case studies of individual works. All address the pedagogical implications of work that challenges children to grapple with questions of perfect or wildly imperfect social organizations and their own autonomy. The book includes interviews with creative writers and the first bibliography of utopian fiction for children. *Economic Science Fictions* William Davies 2018-05-11 An innovative new anthology exploring how science fiction can motivate new approaches

to economics. From the libertarian economics of Ayn Rand to Aldous Huxley's consumerist dystopias, economics and science fiction have often orbited each other. In *Economic Science Fictions*, editor William Davies has deliberately merged the two worlds, asking how we might harness the power of the utopian imagination to revitalize economic thinking. Rooted in the sense that our current economic reality is no longer credible or viable, this collection treats our economy as a series of fictions and science fiction as a means of anticipating different economic futures. It asks how science fiction can motivate new approaches to economics and provides surprising new syntheses, merging social science with fiction, design with politics, scholarship with experimental forms. With an opening chapter from Ha-Joon Chang as well as theory, short stories, and reflections

on design, this book from Goldsmiths Press challenges and changes the notion that economics and science fiction are worlds apart. The result is a wealth of fresh and unusual perspectives for anyone who believes the economy is too important to be left solely to economists. Contributors AUDINT, Khairani Barokka, Carina Brand, Ha-Joon Chang, Miriam Cherry, William Davies, Mark Fisher, Dan Gavshon-Brady and James Pockson, Owen Hatherley, Laura Horn, Tim Jackson, Mark Johnson, Bastien Kerspern, Nora O Murchú, Tobias Revell et al., Judy Thorne, Sherryl Vint, Joseph Walton, Brian Willems

Science Fiction and Indian Women Writers
Urvashi Kuhad 2021-07-29

Science fiction, as a literature of fantasy, goes beyond the mundane to ask the question: what if the world were different from the way it is? It often challenges the real, builds on imagination, places no limits on

human capacities, and encourages readers to think outside their social and cultural conditioning. This book presents a systematic study of Indian women's science fiction. It offers a critical analysis of the works of four female Indian writers of science fiction: Rokeya Sakhawat Hossain, Manjula Padmanabhan, Priya Sarukkai Chabria and Vandana Singh. The author considers not only the evolution of science fiction writing in India, but also discusses the use of innovations and unique themes including science fiction in different Indian languages; the literary, political, and educational activism of the women writers; and eco-feminism and the idea of cloning in writing, to argue that this genre could be viewed as a vibrant representation of freedom of expression and radical literature. This ground-breaking volume will be useful for scholars and

researchers of English literature. It will also prove a very useful source for further studies into Indian literature, science and technology studies, women's and gender studies, comparative literature and cultural studies.

On the Beach Nevil Shute
2010-02-09 "The most shocking fiction I have read in years. What is shocking about it is both the idea and the sheer imaginative brilliance with which Mr. Shute brings it off." THE SAN FRANCISCO CHRONICLE They are the last generation, the innocent victims of an accidental war, living out their last days, making do with what they have, hoping for a miracle. As the deadly rain moves ever closer, the world as we know it winds toward an inevitable end....
Nineteen Eighty-Four
George Orwell 2021-01-09 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English

novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate

named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Dystopia and Economics

Charity-Joy Revere
Acchiardo 2018-03-09
Government collapsing?
Zombies hunting you
down? Everyone you know
killed by a global
epidemic? Not to worry!
Economics holds the keys
to survival. Often known
as "the dismal science",
it is particularly
equipped to reveal order
in what seems like
chaos. Economists
observe human behaviour:
what leads us to take
action, and the
subsequent consequences.
However, the choices
made by individuals are
not made in isolation;
they influence and are
influenced by the
actions of others. A set
of rules, even if
unwritten, guides human
behaviour. Foundational
economic principles
stand firmly in place,
even when society is
breaking down, and an
understanding of these
basic tenets of
societies is essential
to surviving the end of
the world as we know it.
In this book, the
authors draw from
popular culture to show
economic principles at

work in the dystopian
societies depicted in
The Walking Dead, Mad
Max: Fury Road, The
Hunger Games, Divergent,
A Clockwork Orange, and
Last Man on Earth. In
each society, its
members face resource
and social constraints
that incentivize
particular behaviours
and lead to predictable
outcomes. How does human
behaviour change when
resources are severely
limited, the legal
system breaks down, or
individual freedom is
stifled? The examples
presented here shed an
eerie light on the
principles that guide
our actions every day.
Dystopia and Economics:
A Guide to Surviving
Everything from the
Apocalypse to Zombies
provides a user-friendly
introduction to
economics suitable for a
general audience as well
as devoted students of
the discipline.

Allegiant Sara Mack
2013-10-04 ** Allegiant
by Sara Mack is the
second novel in The
Guardian Trilogy. It is
not affiliated with the

Divergent series by Veronica Roth. **Last summer, Emma discovered that true love never dies. It can return. It can give you hope. It can pull you from darkness. Until it's ripped from you. Again. As her 22nd birthday approaches, Emma Donohue finds herself back at school and utterly alone. Hours away from family and friends, her solitary days are spent contemplating what never should have been. James should never have died, but he did. He should never have been assigned as her Guardian, but he was. And she should never have allowed Dane to get too close to her heart. But she failed. Desperate to fill her time, Emma is intrigued by her mysterious new neighbor, Garrett. She's never met anyone quite like him before, and, curious, she attempts to discover his past. Little does she know his presence will pull her into a world she could never imagine. A world that follows an ancient

doctrine. A world built on loyalty, yet plagued by secrets and lies. A world that will threaten everything - and everyone - she loves. Allegiant is a new adult/college paranormal romance containing moderate language/mild innuendo. Allegiant is the second story in The Guardian Trilogy. The third novel, Reborn, is complete and due to be published in February 2014.

Dystopia & Education

Jessica A. Heybach
2013-04-01 Dystopia and Education: Insights into Theory, Praxis, and Policy in an age of Utopia Gone Wrong provides an as-of-yet unexplored critical perspective for examining contemporary educational theory, praxis, and policy with particular reference to the current state of dehumanizing and often oppressive policy and practices that have come to demarcate the era of NCLB and RTT. The authors in this collection employ dystopian themes found

in literature, film, visual art, and video games as the lens for that critical inquiry. As such *Dystopia and Education: Insights into Theory, Praxis, and Policy* is an essential contribution to the philosophical/critical tradition in educational scholarship. It is especially valuable because the inquiry undertaken is from a new perspective—one that will extend the critical tradition into a yet unexplored arena. Given the educational climate established by NCLB and RTT, this collection is especially important to the ongoing critical analysis of such policy mandates. There is also a significantly important timeliness to this book given NCLB's utopian expectation of universal academic proficiency among American schoolchildren by the year 2014: as educators race to achieve such a noble yet naïve goal, this collection of essays examines the educational environment that has

been enacted to achieve such ends, and describes our current state as a utopia-gone wrong.

Final Blackout L. Ron Hubbard 2005-05-15 A land ravaged by war without end. Cities gutted by weapons of mass destruction. Countries laid waste by biological warfare. Governments ruined by greed, violence, and corruption. This is a world in the throes of economic decay and at the mercy of terrorists. This is Asia. This is Europe. This is America. This is Final Blackout. Across this devastated, post-apocalyptic landscape marches one extraordinary soldier and his band of brothers. He is the Lieutenant, a hardened military strategist and a charismatic leader of men. The narrow-minded high command may have relieved the Lieutenant of duty, but not of his honor—and his crack unit of warriors remains fiercely loyal to him. Now, in a time of deception, desperation, and betrayal, they are

headed into the ultimate battle against the ultimate enemy—their own treacherous leaders. But for the Lieutenant, a hero at the crossroads of history, it is time to do what is best for his country and for his men—to undertake one last act of courage and sacrifice ... the Final Blackout. "As perfect a piece of science fiction as has ever been written." —Robert A. Heinlein "Compelling ... riveting ... Hubbard's best." —Publishers Weekly

Absent Rebels: Criticism and Network Power in 21st Century Dystopian Fiction Annika

Gonnermann 2021-04-19

Absent Rebels: Criticism and Network Power in 21st Century Dystopian Fiction focuses on the relationship between literary dystopia, network power and neoliberalism, explaining why rebellion against a dystopian system is absent in so many contemporary dystopian novels. Also, this book helps readers understand modern power

mechanisms and shows ways how to overcome them in our own daily lives.

"Blade Runner" and the Cyberpunk Narrative. Is Cyberpunk a Dystopian Narrative or a Genre of its own? Mike Gallo
2018-04-11 Seminar paper from the year 2017 in the subject English Language and Literature Studies - Literature, grade: 1,7, University of Wuppertal

(Anglistik), course: Narrating Los Angeles, language: English, abstract: The reference "I've seen things you people wouldn't believe" marks one of the most iconic monologues in movie history. It perfectly describes the confusing life within a dystopian future from the perspective of a being whose existence is a comment on life itself. Replicants, artificial life, flying cars, dirty streets, confusing architecture and big corporations fill the narration of "Blade Runner", often claimed as the showpiece of the art form of

cyberpunk. What is cyberpunk? What is cyber? What is punk? This seminar paper will examine the origins of the cyberpunk narrative by amplifying its roots, the dystopian scenario. Furthermore the dystopian roots within the utopian narrative will be specified. Using the example of Ridley Scott's 1982 movie "Blade Runner" the significance of the city of Los Angeles within the cyberpunk narrative will be examined and the importance of the classic hard-boiled detective crime fiction will be put into contrast to Scott's visionary image of 2019 Los Angeles. Is cyberpunk just another version of the dystopian narrative or is it a genre on its own? Is the narration within the cyberpunk universe still relevant or is the cyberpunk era already over? By examining possible roots of the cyberpunk narration within the hard-boiled crime fiction of the 1920s and 1930s, a

connection to Scott's "Blade Runner" is tried to be reasoned.

Alive Again T W

Piperbrook 2021-10-10

Survival in a ravaged world... Hannah Evans startles awake, covered in gore, in a place she doesn't know. Captured and restrained in the hands of strangers, she struggles frantically to remember who she is. And then she sees the needle she was injected with...and the bodies. Before long, she's thrust into a desperate struggle to survive. Navigating a crumbled landscape, fighting for her breath and her humanity, Hannah clings to the shallow hope that her family is still alive. Death is all around her, but one thing is certain: she needs to get home. A post-apocalyptic zombie series in a dystopian world from best-selling author T.W. Piperbrook! *The City, Not Long After* Pat Murphy 2014-04-15 A chilling postapocalyptic novel of hope, despair, art, and war from the Nebula and Philip K.

Dick Award-winning author of *The Falling Woman*. A plague wiped out most of the population, but some have been spared. In San Francisco, those who were left—painters, writers, dreamers—began rebuilding the city in their image: a society based on art, community, and peace. But not everyone has the same pacifist ideals. When a mysterious young woman, Jax, appears in San Francisco, she brings disturbing news. There's a power-hungry man, a general, moving across California, annexing cities and rebuilding his own version of America, willing to destroy anyone who stands in his way. His sights are set on the Golden Gate Bridge, and his army will soon descend, bringing guns, determination, and violence. If Jax and her allies are to survive, they'll have to defend themselves with nothing more than their creativity—and the soul of a city that refuses to be dominated. Drawing

comparisons to the mind-bending work of Gabriel García Márquez, this lush and thought-provoking dystopian novel is an examination of human spirit, for better or worse, and a magical journey into what it means to survive.

Genesis Trade Eliza Green
2019-02-20 Freedom comes at a high cost. For one of them, that cost could destroy everything. Following treatment to reverse her genetic alteration, Isobel returns to Earth to reconnect with the husband she left behind. But on arrival, she is captured by the criminal factions controlling the cities and sold into slavery. Marcus dreams of being more than the lackey of a crime boss on a lawless Earth. But to impress Gaetano Agostini, he will need

to take command of the Indigenes who have returned. When a rumour circulates that his boss wants him dead, Marcus is forced to seek help in the most unlikely of places. While Isobel plans a daring escape to confront her past, Marcus must face a sickening alliance with those he commands to protect his position on Earth. Genesis Trade is the fifth novel in the dystopian society thriller Genesis series and shines a light on two of Genesis Pact's most elusive characters. Discover more about Marcus' murky present and Isobel's mysterious past in this dystopian science fiction story retold.

Genesis Pact Eliza Green 2019-02-20 There's a dangerous new power on Earth. Eight years after Genesis War and in a post-World Government era, criminal factions emerge to take control of the cities. ITF Director Bill Taggart watches from afar as humanity faces a new threat in the guise of

an unstable power. When signs emerge that the factions are getting restless, Bill sends alien Indigenes back to Earth. His hope is they will join the fight against the criminals. But the factions capture those who return and put them to work in the curfew-controlled neighbourhoods. An Indigene named Isobel is sold to one such neighbourhood. There the residents greet her with hostility, but when the factions threaten more than the residents' livelihood, Isobel looks ready to choose a side. With time running out for the residents, Bill must determine if Isobel will help liberate the people or betray them. Because the psychotic regime in charge is about to destroy what little peace remains. Genesis Pact is the fourth novel in the Genesis series, a new era with new villains, old faces and a continuing battle to survive. If you like eccentric characters, broken worlds, and

government conspiracies, then you'll love Eliza Green's future dystopian society series. Revisit old characters and get to know new ones in this action-packed science fiction fourth instalment.

Dystopia Gregory Claeys 2016-11-17 *Dystopia: A Natural History* is the first monograph devoted to the concept of dystopia. Taking the term to encompass both a literary tradition of satirical works, mostly on totalitarianism, as well as real despotisms and societies in a state of disastrous collapse, this volume redefines the central concepts and the chronology of the genre and offers a paradigm-shifting understanding of the subject. Part One assesses the theory and prehistory of 'dystopia'. By contrast to utopia, conceived as promoting an ideal of friendship defined as 'enhanced sociability', dystopia is defined by estrangement, fear, and the proliferation of 'enemy' categories. A

'natural history' of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms. The work of Le Bon, Freud, and others is used to show how dystopian groups use such emotions. Utopia and dystopia are portrayed not as opposites, but as extremes on a spectrum of sociability, defined by a heightened form of group identity. The prehistory of the process whereby 'enemies' are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft, and the persecution of heresy. Part Two surveys the major dystopian moments in twentieth century despotisms, focussing in particular upon Nazi Germany, Stalinism, the Chinese Cultural Revolution, and Cambodia under Pol Pot. The concentration here is upon the political religion hypothesis as a

key explanation for the chief excesses of communism in particular. Part Three examines literary dystopias. It commences well before the usual starting-point in the secondary literature, in anti-Jacobin writings of the 1790s. Two chapters address the main twentieth-century texts usually studied as representative of the genre, Aldous Huxley's *Brave New World* and George Orwell's *Nineteen Eighty-Four*. The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present.

Swastika Night Katharine Burdekin 1985 Seven hundred years after Hitler's conquest of Europe men are encouraged to follow the soldierly virtues, while women are reduced to breeders and victims
The Giver Lois Lowry 2014-07-01 Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life

assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

Genesis Rising Eliza Green The uprising will destroy everything. A change of heart can stop it. In the aftermath of a deadly virus attack on Exilon 5, life appears to be returning to normal. For ITF Director Bill Taggart, temporary alliances with old foes have been forgotten. Armed with only a fragile peace treaty, Bill wields it to keep all factions of society lawful. But things turn sinister when a new force takes control of the cities—a move that ousts Bill from his position. With three opposing sides seeking independence, he scrambles to work out who is behind the deadly move. When an old ally reaches out, Bill thinks he understands the reason for the citywide attack. But the deeper he digs into the enemy's motives, the less

obvious the reasons become. Without a strong leader and plan, the uprising appears unstoppable. But Bill fears that to enact real reform on Exilon 5, change must begin with him. Genesis Rising is the eighth book in the Genesis series. If you like strong heroines, dysfunctional characters, and nail-biting scenes, then you'll love the final installment in Eliza Green's dystopian society thriller series.

An Unexpected Journal: Dystopia

Daniel Asperheim 2019-09-12 It is in the deepest darkness that light shines most brightly. For this reason, dystopian stories are often an effective channel to communicate the good news of the Gospel. Our worst failings illustrate the transformation of the Holy Spirit most clearly. We cling most tightly to hope in times of deepest despair. This collection of essays and first release short stories illustrates the

journey dystopian stories take us on, highlighting the problem, the answer, and redemption. Volume 2, Issue 3 Fall 2019 272 pages

Eve Anna Carey

2011-10-04 The first book in Anna Carey's chilling Eve trilogy, Eve is perfect for fans of The Handmaiden's Tale. After a deadly virus wiped out most of Earth's population, the world is a terrifying place. Eighteen-year-old Eve has grown up isolated from the rest of the destroyed world in an all-girls school. But it isn't until the night before her graduation that she discovers what her duties will be once she graduates. To avoid the horrifying fate that awaits her, Eve flees the only home she's ever known. On the run, she encounters Caleb, a rough, rebellious boy living in the wild. Eve knows she shouldn't trust him, but he slowly wins her confidence...and her heart. He promises to protect her, but when

soldiers begin hunting them, Eve must choose between true love and her life. Eve is the first book in Anna Carey's trilogy, full of romance, adventure, sacrifice, all set in a near future that is both wonderfully strange, and chillingly familiar.

The Last Escape Bobby Adair 2015-10-14 They were dead. All of them. In the wake of a massacre, Ella, Bray, and William flee into the wild, hoping to escape the brutal vengeance of an unforgiving leader. In Brighton, political and economic tensions boil. Famine is approaching. The monsters are amassing. And a costly decision must be made, one that will threaten the lives of humanity's last survivors...

Article 5 Kristen Simmons 2012-01-31 New York, Los Angeles, and Washington, D.C., have been abandoned. The Bill of Rights has been revoked, and replaced with the Moral Statutes. There are no more police—instead, there

are soldiers. There are no more fines for bad behavior—instead, there are arrests, trials, and maybe worse. People who get arrested usually don't come back.

Seventeen-year-old Ember Miller is old enough to remember that things weren't always this way. Living with her rebellious single mother, it's hard for her to forget that people weren't always arrested for reading the wrong books or staying out after dark. It's hard to forget that life in the United States used to be different. Ember has perfected the art of keeping a low profile. She knows how to get the things she needs, like food stamps and hand-me-down clothes, and how to pass the random home inspections by the military. Her life is as close to peaceful as circumstances allow. That is, until her mother is arrested for noncompliance with Article 5 of the Moral Statutes. And one of the arresting officers is

none other than Chase Jennings...the only boy Ember has ever loved. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

On Such a Full Sea
Chang-rae Lee 2014-01-07
“Watching a talented
writer take a risk is
one of the pleasures of
devoted reading, and *On
Such a Full Sea* provides
all that and more. . . .
With *On Such a Full Sea*,
[Chang-rae Lee] has

found a new way to
explore his old
preoccupation: the oft-
told tale of the
desperate, betraying,
lonely human
heart.”—Andrew Sean
Greer, *The New York
Times Book Review* “I've
never been a fan of
grand hyperbolic
declarations in book
reviews, but faced with
On Such a Full Sea, I
have no choice but to
ask: Who is a greater
novelist than Chang-rae
Lee today?”—Porochista
Khakpour, *The Los
Angeles Times* From the
beloved award-winning
author of *Native
Speaker*, *The Surrendered*,
and *My Year Abroad*, a
highly provocative,
deeply affecting story
of one woman's legendary
quest in a shocking,
future America. *On Such
a Full Sea* takes Chang-
rae Lee's elegance of
prose, his masterly
storytelling, and his
long-standing interests
in identity, culture,
work, and love, and
lifts them to a new
plane. Stepping from the
realistic and historical
territories of his

previous work, Lee brings us into a world created from scratch. Against a vividly imagined future America, Lee tells a stunning, surprising, and riveting story that will change the way readers think about the world they live in. In a future, long-declining America, society is strictly stratified by class. Long-abandoned urban neighborhoods have been repurposed as highwalled, self-contained labor colonies. And the members of the labor class—descendants of those brought over en masse many years earlier from environmentally ruined provincial China—find purpose and identity in their work to provide pristine produce and fish to the small, elite, satellite charter villages that ring the labor settlement. In this world lives Fan, a female fish-tank diver, who leaves her home in the B-Mor settlement (once known as Baltimore), when the man

she loves mysteriously disappears. Fan's journey to find him takes her out of the safety of B-Mor, through the anarchic Open Counties, where crime is rampant with scant governmental oversight, and to a faraway charter village, in a quest that will soon become legend to those she left behind.

Starship Troopers Robert Anson Heinlein 1987 In a futuristic military adventure a recruit goes through the roughest boot camp in the universe and into battle with the Terran Mobile Infantry in what historians would come to call the First Interstellar War

Utopia and Dystopia in the Age of Trump Barbara Brodman 2019-06-04

Utopia and Dystopia in the Age of Trump focuses on utopias and dystopias that either prefigure or suggest alternatives to the rise of individuals such as Donald J. Trump and the changing conditions of America we now see around us. These topical studies provide

compelling reading for both the general reader and the specialist.

Life as We Knew it Susan Beth Pfeffer 2008

Through journal entries, sixteen-year-old Miranda describes her family's struggle to survive after a meteor hits the moon, causing worldwide tsunamis, earthquakes, and volcanic eruptions.

The Last Voyage of Poe Blythe Ally Condie 2020

Seeking to avenge the murder of her true love while on a dredge ship searching for gold, fifteen-year-old captain Poe Blythe becomes the architect of new defenses designed to destroy her enemies.

Katherine V. Forrest

Phyllis M. Betz

2017-02-27 Best known for her Kate Delafield detective series, Katherine V. Forrest is recognized as one of the preeminent figures in lesbian popular literature. Yet her work has received little scholarly attention. This critical study explores Forrest's entire body of work, including her fiction

and (perhaps more importantly) her writing about writing, popular genres and her readers. Her science fiction and romance novels are analyzed, with a focus on the reasons behind their enduring appeal. Her most famous romance, *Curious Wine*, originally published in 1984, remains in print--a longevity far exceeding the typical romance novel.

Nineteen Eighty-Four: Science Between Utopia and Dystopia E.

Mendelsohn 2012-12-06

Just fifty years ago Julian Huxley, the biologist grandson of Thomas Henry Huxley, published a book which easily could be seen to represent the prevailing outlook among young scientists of the day: *If I were a Dictator* (1934). The outlook is optimistic, the tone playfully rational, the intent clear - allow science a free hand and through rational planning it could bring order out of the surrounding social chaos. He complained,

however: At the moment, science is for most part either an intellectual luxury or the paid servant of capitalist industry or the nationalist state. When it and its results cannot be fitted into the existing framework, it and they are ignored; and furthermore the structure of scientific research is grossly lopsided, with over-emphasis on some kinds of science and partial or entire neglect of others. (pp. 83-84) All this the scientist dictator would set right. A new era of scientific humanism would provide alternative visions to the traditional religions with their Gods and the civic religions such as Nazism and fascism. Science in Huxley's version carries in it the twin impulses of the utopian imagination - Power and Order. Of course, it was exactly this vision of science which led that other grand son of Thomas Henry Huxley, the writer Aldous Huxley, to

portray scientific discovery as potentially subversive and scientific practice as ultimately enslaving. *Jennifer Government* Max Barry 2004-01-06 A wickedly satirical and outrageous thriller about globalization and marketing hype, *Jennifer Government* is the best novel in the world ever. "Funny and clever.... A kind of ad-world version of *Dr. Strangelove*.... [Barry] unleashes enough wit and surprise to make his story a total blast." --The New York Times Book Review "Wicked and wonderful.... [It] does just about everything right.... Fast-moving, funny, involving." --The Washington Post Book World Taxation has been abolished, the government has been privatized, and employees take the surname of the company they work for. It's a brave new corporate world, but you don't want to be caught without a platinum credit card--as lowly Merchandising Officer

Hack Nike is about to find out. Trapped into building street cred for a new line of \$2500 sneakers by shooting customers, Hack attracts the barcode-tattooed eye of the legendary Jennifer Government. A

stressed-out single mom, corporate watchdog, and government agent who has to rustle up funding before she's allowed to fight crime, Jennifer Government is holding a closing down sale--and everything must go.
